MANAGEMENT REVIEW

Ref: - P 5-6

An annual Management Review is carried out to ensure the systems suitability, adequacy and effectiveness within the current needs and operating procedures of the Company and to address the future objectives and improvements relating to Quality.

To achieve this, a formal meeting is held against an agenda, the requirements of which are detailed in procedure P 5-6. This procedure details both the input to and the output from the review.

The meeting is recorded in a manner that details not only the discussions but also the actions required and the person(s) responsible for the action.

Details of who, what, how and documentation are detailed in the company's written procedures.
